FotFS VI:

Reasoning about Probabilities and Probabilistic Reasoning

Scientific & Organizing Committee:

H. Arló Costa (Pittsburgh PA), B. Löwe (Amsterdam), D. Makinson (London),
E. Pacuit (Amsterdam, Coordinator), J.-W. Romeijn (Amsterdam)

Universiteit van Amsterdam
Institute for Logic, Language and Computation

May 2nd to 5th, 2007

TOPICS:

What is Probability?
Probability in AI
Probabilistic Automata
Bayesian Epistemology
Probability in Linguistics
Probabilistic Computation
Foundations of Probability
History of Probabilistic Thought
Alternative Formalization of Randomness
Foundations of Game Theory and Decision Theory
Complexity of Randomness and Probabilistic Reasoning
Probabilistic Proofs and the Foundations of Mathematics
Special PROGIC section: Combining Probability and Logic

Deadline for submission of papers:
March 15, 2007

INVITED SPEAKERS:

Luc Bovens (London)
David Corfield (Tübingen)
Branden Fitelson (Berkeley CA)
Maria Carla Galavotti (Bologna)
Anne-Sophie Godfroy-Genin (Paris)
Peter Grünwald (Amsterdam)
Joe Halpern (Ithaca NY)
Barteld Kooi (Groningen)
Teddy Seidenfeld (Pittsburgh PA)

PROGICNET SESSION:

Rolf Haenni Sola (Bern)
Jan-Willem Romeijn (Amsterdam)
Gregory Wheeler (Lisboa)
Jon Williamson (Canterbury)
