

Kolloquium über Reine Mathematik

Einladung zu einem Vortrag

Dienstag, 16. April 2019

17 Uhr s.t., Geom H4

Prof. Dr. Stefan Friedl
(Universität Regensburg)

The joys and dangers of topology

Abstract:

I will talk about my attempt to relearn topology through a long sequence of courses.

Throughout the process there have been various surprises, some pleasant, some less so.

I will not assume any previous knowledge of topology.

Vor dem Vortrag (ab 16.30 Uhr) stehen im Raum 327 Kaffee und Tee bereit.
