

# Kolloquium über Reine Mathematik

Einladung zu einem Vortrag

**Dienstag, 22.11.2022**

17 Uhr, Geom H4

**Prof. Dennis Gaijs**  
(Max Planck Institut Bonn)

**From geometric to classical Langlands,  
via the trace of Frobenius**

Abstract:

We will explain how the procedure of taking the (categorical) trace of Frobenius realizes the passage from the geometric to the classical Langlands theory. Combined with the geometric Langlands conjecture (now close to being a theorem), this gives an explicit description of the space of automorphic functions in terms of Galois parameters.

**Vor dem Vortrag (ab 16.30 Uhr) stehen im Foyer vor Hörsaal H4  
Kaffee und Tee bereit.**
