The Department of Mathematics of the Faculty of Mathematics, Computer Science and Natural Sciences invites applications for a

Full Professor Position for Mathematics, in particular Symplectic Geometry

(reference number: 2025/W2, salary scale W2).
to be filled at the earliest possible date.

The University of Hamburg wants to increase the share of female faculty members and especially encourages qualified women to apply. In compliance with the "Hamburgisches Hochschulgesetz" women with equivalent qualifications will be preferentially considered .

Position characteristics:

Research and teaching within the above mentioned research field. Applicants should demonstrate research experience preferably within the field of symplectic geometry. The position is connected to the research group "Analysis and Differential Geometry" at the Department of Mathematics and shall supplement the existing strengths in differential geometry and global analysis. A close collaboration in the framework of the Center for Mathematical Physics (ZMP) and the Collaborative Research Center "Particles, Strings and the Early Universe: the Structure of Matter and Space-Time" (SFB 676) is expected. The appointee is further expected to take active part in teaching mathematics to students of physics and other fields of study.

Qualifications:

In accordance with article 15 of the "Hamburgisches Hochschulgesetz"
